

BLOWN FILM MACHINE

PB45~PB75

PP BLOWN FILM MACHINE

Roll Surface is Smooth and Glossy

Water Ring and Stable PP Bubble

Features:

- Special screw design results in good mixing homogeneity to ensure high output and film quality.
- AC inverter control motor for energy saving.
- The water cooling system effectively makes film glossier and more transparent, which is an advantageous feature for food, flower, and garment packing.
- Comes with 10 sets of water rings for different sized final products.

Optional Devices:

- Auto Loader
- Hopper Dryer
- Die Rotating Device
- Surface Treater
- Air Compressor
- Melt Pressure Gauge
- Temperature Probe
- Chiller

Model	Suitable Material	Screw Dia.	Max. Film Width	Max. Output	Screw L/D Ratio	Main Motor (w/Inverter)
PB45	pp	Ø45	400mm	35kg/hr	30:1	15HP
PB55		Ø55	600mm	60kg/hr		25HP
PB65		Ø65	800mm	75kg/hr		40HP
PB75		Ø75	1200mm	100kg/hr		60HP
